

Biochemist Cover Letter

8769 Leon Course Harrisstad, MI 10636

Dear Jordan Auer,

In response to your job posting for biochemist, I am including this letter and my resume for your review.

In the previous role, I was responsible for gMP witnessing for the work of other team members, including the verification of legible manufacturing entries.

Please consider my qualifications and experience:

- Previous experience working with protein purification is preferred
- PhD in Biology, Molecular Biology, Biochemistry, Chemistry, or a related discipline with experience in aptamer selection techniques (experienced B.S
- Demonstrated expertise in the development and application of biochemistry and a general understanding of human physiology
- Demonstrated expertise in the development and application of novel aptamer processes (including selection, characterization, and optimization)
- Strong interpersonal skills including a proven track record of building and maintaining effective working relationships with team and industry partners
- Excellent oral and written communication skills including experience presenting research at conferences and meetings
- A doctorate (or will shortly satisfy the requirements of a PhD) in a relevant discipline area, such as biochemistry and molecular biology
- Demonstrated expertise in biochemistry including enzymology and molecular biology of metalloproteins

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Morgan Zemlak
