

# Biochemist Cover Letter

4990 McClure Cove North Ervinton, IA 13042

**Dear Tatum Gerhold,**

Please consider me for the biochemist opportunity. I am including my resume that lists my qualifications and experience.

In my previous role, I was responsible for assistance in research and analysis for product stability of immunoassays.

Please consider my qualifications and experience:

- Well-organized and able to manage several projects simultaneously
- Experience in a biotech company or pharmaceutical industry is an asset
- Knowledge of and/or skills in protein characterization (SDS-PAGE, CGE, Western Blot, SEC, protein quantitation, buffer preparation)
- Good problem solver that is open to suggestions
- Prior experience working as part of a multi-disciplinary team focused on the discovery and advancement of novel therapeutic mechanisms having a sustained track record of delivering high quality datasets
- Proficient in ELISA based test methods, trouble-shooting instrumentation
- Working knowledge of computer software programs such as Microsoft Excel, Microsoft Word
- Prior experience in biochemical lab environment

**Thank you in advance for reviewing my candidacy for this position.**

Sincerely,

Tatum Parker
