

Biostatistician Cover Letter

5562 Brain WaysSchultzhaven, IN 12299-5168

Dear Gray O'Connell,

I am excited to be applying for the position of biostatistician. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for statistical consulting to Client clinical teams in design of clinical studies and in the analysis and interpretation of study data.

Please consider my experience and qualifications for this position:

- Demonstrated proficiency with statistical methods and applications applied to water quality
- Competent in R, SAS or related statistical programming languages
- Proficient with SAS programming and other statistical software (e.g., R, nQuery)
- Good knowledge in applied statistics and data analysis methodology including categorical data analysis, survival analysis
- Skilled in the use of PC based statistical packages
- Knowledge in appropriate statistical software such as JMP, Minitab or SAS
- Experienced with one major programming language
- Sufficient knowledge and skills so as to provide advice and consultation on a variety of problems involving the theory or application of statistical methods

Thank you for taking your time to review my application.

Sincerely,

Tatum Crona
