

Biostatistician Cover Letter

649 Arlinda PlainsHarberhaven, AL 49015

Dear Indigo Wintheiser,

I submit this application to express my sincere interest in the biostatistician position.

In the previous role, I was responsible for data mgmt., statistical analysis, & programming for ongoing & proposed studies by investigators & collaborators including lab, clinical/translational research studies, experimental & observational.

Please consider my experience and qualifications for this position:

- Demonstrated skill to evaluate new statistical methods
- Scientific Education in biostatistics, statistics or mathematics (equiv
- Have a strong knowledge of statistics, mathematics and computing to analyze large datasets
- Good knowledge of statistical software (XL Stat, Minitab, Medcalc ...) and programming (Labview ...)
- Good skills in descriptive and inferential statistics (hypothesis testing), statistical modeling (linear models, mixed models ...), machine learning (SVM, random forest)
- Very good oral and written English
- Working knowledge of SAS, including familiarity with SAS/GRAPH, and SAS/MACRO
- Extensive knowledge of SAS and other programming languages

I really appreciate you taking the time to review my application for the position of biostatistician.

Sincerely,

Oakley Lockman
