

Biostatistician Cover Letter

7843 Rocco Locks West Ed, OK 51170-1286

Dear Rowan Torp,

I would like to submit my application for the biostatistician opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for statistical expertise in the areas of study design, data management, data analysis, and programming to investigators/researchers interested in conducting clinical or experimental studies.

My experience is an excellent fit for the list of requirements in this job:

- Proven track record of Statistical Design, Analysis and Reporting, and Interpretation of clinical studies
- Broad knowledge, deep expertise and superior understanding of advanced statistical concepts and techniques
- Experience working with clinicians, scientists, regulators and presenting at statistical and investigator meetings
- Strong written and verbal communication skills, experience working within a collaborative research team preferred
- Expertise with exploratory data analysis and visualization methods, such as static plots
- Coursework in biology preferred
- Experience implementing and familiarity with standard statistical techniques for clinical trials of diagnostic imaging, including testing for association, regression and survival analysis, basic study design, and methods for the analysis of diagnostic test accuracy studies
- Lead production and quality control of randomization, analysis plans, statistical reports

Thank you for your time and consideration.

Sincerely,
