

Biostatistician Cover Letter

499 Bosco RoadEverettstad, VA 77444-9805

Dear Ryan Nienow,

In response to your job posting for biostatistician, I am including this letter and my resume for your review.

In my previous role, I was responsible for study design input, author Statistical Analysis Plan (SAP) and perform statistical analysis for biomarker validation and clinical utility studies.

Please consider my experience and qualifications for this position:

- Experience in all tasks of a Trial Statistician
- Proven knowledge in Statistics and its applications to clinical trials
- Proven knowledge of statistical software packages
- Demonstrate a sound knowledge of all relevant regulations, including GCP
- Experience in Early Phase studies with good pharmacokinetic knowledge is preferred
- Experience implementing and familiarity with standard statistical techniques including testing for association, regression, survival analysis, Hierarchical Linear Modeling (HLM) or Multi-level modeling, including multilevel, multisite, nested design
- Proficiency in a major statistical software package (SPSS or SAS)
- Familiar with graphical software for reporting statistical analysis

Thank you for considering me to become a member of your team.

Sincerely,

Emerson Okuneva
