Dear Azariah Kirlin,

I would like to submit my application for the biostatistician opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for sAS programming support for clinical studies to support the development, regulatory approval and conferences/publications for T-cell therapies.

Please consider my experience and qualifications for this position:

- Proficiency in a major statistical software package (e.g., SAS, Stata and/or R)
- Experience in Clinical Trials, CMS, and/or Biomedical data analysis
- Intermediate knowledge bio statistical methods for observational and randomized studies
- Intermediate knowledge of statistical software packages, particularly SAS
- Demonstrated software and technical skills
- Assume ownership of all statistical deliverables for assigned projects
- Participate in project team meetings to ensure timelines are met with high quality outputs
- Support statistical input and assistance in database design / build, where applicable

Thank you for your time and consideration.

Sincerely,

Emerson Shanahan
