

Boeing Cover Letter

502 Corkery Canyon Daughertyborough, ID 12338

Dear Skyler Turner,

In response to your job posting for boeing, I am including this letter and my resume for your review.

In my previous role, I was responsible for a comprehensive level of reporting of all technical issues and resolution actions internally and externally and escalate issues as appropriate.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience in Azure related tools/technologies (Primary skills)– Windows Azure, Azure SDK, RDS in Azure, Cloud Security, PaaS service in Azure and Security Management, Azure Web Role Worker Role, Azure Active Directory, Blob Storage, Azure Websites, websockets, real-time BI dashboards, Visual Studio Team Server, SQL Server
- Proficiency in programming with different Java IDE's like Eclipse or Net beans
- Proficiency in Hibernate and the O/R mapping to map Java domain objects with the database, spring framework to easily configure J2EE applications
- Javascript, Angular 2.0 (and above), SignalR, Node.js
- Experience in SQL, PL/SQL to write Stored Procedures, Functions, Triggers, Views and strong experience in RDBMS
- Knowledge and working experience with Cloud Foundry Experience in implementing web based projects using Web/Application Servers - Apache Tomcat 8
- Expertise in source control and deployment tools like GIT Lab, Team Foundation Server, Jenkins
- Self-motivated Software Engineer to support real-time software applications

Thank you in advance for reviewing my candidacy for this position.

Dylan O'Hara
