

Boeing Cover Letter

72344 Mikel PlainPort Yadiracheater, IL 71387

Dear Oakley McLaughlin,

In response to your job posting for boeing, I am including this letter and my resume for your review.

In my previous role, I was responsible for management and leadership of the technical, operational and legal aspects of company aircraft on the B787 fleet.

Please consider my experience and qualifications for this position:

- Experience with build tools such as Ant, Jenkins and Sonatype Nexus
- Experience with Unix like operating systems and Windows operating systems
- Guide the development team at offshore
- Design and Development of system and its enhancements
- BS in Computer Science, Computer Engineering, Electrical Engineering, Mathematics or equivalent
- C#, .NET, Visual Studio, SQL Server
- Software development targeting Microsoft Windows Operating Systems
- Software development across the entire life cycle

Thank you for considering me to become a member of your team.

Sincerely,

Royal Larkin
