

Boeing Cover Letter

177 Hane FerrySouth Salvatore, TN 24377

Dear Casey McDermott,

In response to your job posting for boeing, I am including this letter and my resume for your review.

In the previous role, I was responsible for quality leadership and technical expertise to Boeing Avionics employees, suppliers, customers and regulatory agencies to ensure compliance with contractual, company, and regulatory requirements.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience in applying Design Thinking across products
- Experience working and/or leading in agile framework and development environments
- Requires a self-starter with strong entrepreneurial spirit and able to work in a fast-paced and creative environment
- Requires a strong background in product design, product marketing, journey maps, user experience, digital toolkits, digital anthropology and design frameworks
- Usage of tools like Adobe, Sketch and other design tools to create “prototypes” is strongly preferred
- Domain expertise in aviation services is preferred
- Requires experience producing complex 2D and 3D graphics, animations and interactive multimedia design solutions
- Strong background as a product manager or project manager

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,
