

# Business Analyst SAP Cover Letter

7470 Langworth Flats Richardmouth, SD 21912-3468

**Dear Dakota Johnson,**

In response to your job posting for business analyst SAP, I am including this letter and my resume for your review.

Previously, I was responsible for business analysis and process redesign expertise in one or more functional areas (finance, accounting, sales, etc.) within the enterprise specifically in the analysis, and redesign, of SAP functions and processes in English and French.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Additional programming experience
- No relocation assistance is being provided
- Expert understanding of business systems and manufacturing environments
- Expert understanding of system life cycle methodologies
- Communicates and interacts well with all levels of the organization, in order to understand user requirements while providing advice, recommendations and instructions
- Experience with giving direction to IT individuals and users
- Solid understanding of business systems and manufacturing environments
- Solid understanding of system life cycle methodologies

**Thank you for taking your time to review my application.**

Sincerely,

Rory Hammes
