

Business Information Systems Cover Letter

5050 Garnett Bypass Bruenburgh, KS 68881

Dear Max Romaguera,

Please consider me for the business information systems opportunity. I am including my resume that lists my qualifications and experience.

Previously, I was responsible for programming expertise using SAS software to manage large databases and perform data management tasks such as merging demographic and enrollment data with associated Medicare and Medicaid medical claims data.

Please consider my experience and qualifications for this position:

- Business Analysts including application testing
- Understand Agile Methodology principles and be able to work dynamically with other team members
- Capable of review detail designs
- Technical knowledge of COBOL, CICS, z/OS, JCL and/or C and AIX and/or Java/WebSphere/JBoss Java Swing and Java Spring
- Possesses interpersonal skills to work within and across department lines and at all levels
- Creates value and opportunity by leveraging innovative approaches
- Takes ownership for team's execution and getting things done
- BS in technical field is a minimum

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Rowan Mraz
