

C Software Engineer Cover Letter

4449 Terina Island North Lorette, RI 31116

Dear Reese Leannon,

I am excited to be applying for the position of C software engineer. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for coaching and consulting on curriculum/training design and development and build long-term business relationships with various groups within the organization including Sales, Application Engineering, and Marketing.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Knowledge of Subversion (SVN) preferred
- English language skills at level allowing efficient communication
- Longtime experience in object-oriented software development (C++, C#) and design
- Good understanding of hardware and software interaction
- Experience in developing for a Windows environment
- Highly organized, self-motivated working independently
- Experience to work on evolving code bases and legacy code
- Open minded global team player

Thank you for taking your time to review my application.

Sincerely,

Bellamy Koelpin
