

# Civil Engineering Technologist Cover Letter

286 Gorczany CrestSammyfort, FL 05305

**Dear Tyler Bernhard,**

In response to your job posting for civil engineering technologist, I am including this letter and my resume for your review.

In my previous role, I was responsible for acquisition and program management engineering support, facilities management, and construction engineering management expertise to Office of Acquisition (OA) programs and oversight programs.

Please consider my qualifications and experience:

- Demonstrated practical hands-on design, construction administration and project management expertise
- Completion of a Diploma in Civil Engineering Technology or similar program considered an asset
- Field construction experience related to bridges, roads, land development or other heavy civil engineering projects will be an asset
- AA/AS (US) + None or Diploma/Certification (Canada) + None
- Experience with Bentley Microstation V8i
- Familiarity with steel erection drawings and foundation plans
- Civil Engineering Technology graduate
- Proven experience in contract administration and site inspection on road construction

**Thank you in advance for reviewing my candidacy for this position.**

Sincerely,

Campbell Daniel
