

Civil Inspector Cover Letter

724 Nigel OverpassWardton, NE 80364

Dear Zion Langosh,

I am excited to be applying for the position of civil inspector. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for guidance to your clients and share your knowledge in the application of Autodesk solutions for civil engineering / infrastructure domains such as railways, road construction, airports, utilities, energy, plant etc.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Attending to Inspection Requests (IR's) submitted by the contractor and taking appropriate action in a timely manner
- Reporting any works carried out by contractor found to not be in accordance with approved drawings and specifications and report to immediate supervisor for appropriate action and discharge instruction to the contractor
- Monitoring quality of work and assessing the safety at site including health and environmental issues, ensuring the same complies with contracts / QCS specifications, safety and health risk assessment and environmental mitigating measures respectively on a daily basis
- Monitoring quality of work and assessing the safety at site including health and environmental issues, ensuring that same complies with contracts / QCS specifications, safety and health risk assessment and environmental mitigating measures respectively on a daily basis
- Adequate Knowledge of the related Statutory, regulatory and Code requirement in Civil/Structural construction
- Certified Engineering Technologist [CET] or Registered Engineering Technologist or equivalent Industry Experience
- Experience with utility underground construction practices, specifications and

- Prefer construction safety training including OSHA 10 hour training completion

Thank you for considering me to become a member of your team.

Sincerely,

Haven Huel
