

Civil Technician Cover Letter

195 Aurea WellNorth Son, SD 89405

Dear Sawyer Bechtelar,

I submit this application to express my sincere interest in the civil technician position.

Previously, I was responsible for direction and support in the creation of BIM products and construction drawings that are compliant with contract conditions, CAD standards, and best practices.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Expert 3D design capabilities
- Experience with reading prints concrete work and basic electrical work preferred
- Able to operate heavy construction equipment
- Read prints, experienced with concrete work and basic electrical work
- Progressing to graduate / Immediate Graduate from an accredited college program in Civil Engineering Technology, CAD Technology, or from a career college in Engineering CAD / BIM Technology
- Experience with transportation infrastructure projects is preferred
- Software proficiency with both AutoCAD and Microstation is essential
- Working knowledge of Civil 3D and/or InRoads would be an an asset

I really appreciate you taking the time to review my application for the position of civil technician.

Sincerely,

Campbell Emard
