

Clinical Geneticist Cover Letter

59000 Graham RoadDantehaven, AR 86877-1795

Dear Hayden Reichel,

I would like to submit my application for the clinical geneticist opening. Please accept this letter and the attached resume.

Previously, I was responsible for mentorship of junior staff for succession planning, and to advance their scientific stature and professional development. .

Please consider my qualifications and experience:

- Preferably experience in translational research towards clinical oncology applications
- Practical hands-on biomolecular analysis experience related to the fields of molecular biology, cell biology, signal transduction, mutational analysis and/or disease pathophysiology
- Proven track record in cancer research or immunology
- Previous experience in a clinical laboratory highly preferred
- Deep understanding of complex human genetics concepts with special emphasis on population genetics
- Masters in a Life Science such as Molecular Biology/Genetics/Bioinformatics/Biochemistry or equivalent
- A strong background in Human Genetics is essential
- In-depth understanding of the biology, molecular mechanisms and functional studies of human genetic disease genes is necessary

Thank you for taking your time to review my application.

Sincerely,

Emery Leffler
