

Clinical Geneticist Cover Letter

15558 Coletta PortJulianview, WY 56659

Dear Jordan Lynch,

I submit this application to express my sincere interest in the clinical geneticist position.

In the previous role, I was responsible for input to aid in the development of the clinical database, and clinical operations focused review of the clinical database specifications during set-up, and support data cleaning and data evaluation meetings and Results Interpretation Meetings (RIMs).

Please consider my experience and qualifications for this position:

- Cross-disciplinary and strong analytical skills broad experience using computational methods, databases, software and hardware
- Familiarity with NCBI and other germline databases, Sanger Sequencing and Next-generation sequencing (NGS) is strongly preferred
- Technical skills include a knowledge of elementary statistics, interpretation of graphs and quick grasp of scientific data
- Knowledge of laboratory operations is beneficial
- Effective verbal and written communication abilities
- PhD or MD with relevant molecular biology or genetics experience
- Board eligible/certified by the American Board of Medical Genetics
- Strong understanding of clinical applications of genetic information

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Cameron Hilll
