

# Clinical Geneticist Cover Letter

852 Kenneth ForgesNew Geraldoside, MS 34084

**Dear Emery Stracke,**

I submit this application to express my sincere interest in the clinical geneticist position.

In the previous role, I was responsible for genomic subject matter expertise and collaborate with Defense Health Agency (DHA) Health Information Technology (HIT) regarding Air Force and DHA Information Assurance.

Please consider my experience and qualifications for this position:

- Strong understanding of statistical analyses
- Demonstrated experience in evaluating scientific papers, translation of genetic information and applying genetic analysis
- Strong understanding of bioinformatics approaches for clinical genome analysis
- Knowledge of agile software development life cycle processes
- PhD in genetics (or a related field) with board certification or board eligibility through the American Board of Medical Genetics and Genomics in Clinical Molecular Genetics or Laboratory Genetics and Genomics
- Experience with reporting guidelines for both somatic and germline genetic testing
- Self-driven and works well in interdisciplinary teams
- Experience with communicating insights and presenting concepts to a diverse audience

**Thank you for considering me to become a member of your team.**

Sincerely,

Ryan Torphy
