

Clinical Geneticist Cover Letter

2606 Purdy Place
Port Corteztown, NV 18915

Dear Parker Bogan,

Please consider me for the clinical geneticist opportunity. I am including my resume that lists my qualifications and experience.

In my previous role, I was responsible for technical oversight of external development and implementation of regulated immunogenicity and molecular biology assays.

Please consider my qualifications and experience:

- Ensures up-to-date knowledge on medical genetics
- Assist with Standard Operating Procedure (SOP) management, and proficiency testing review and corrective actions
- Translating clinical, genomics and (molecular) biology knowledge to operational use within the team
- Efficiently reviews data (ABI, NGS, MLPA,) and approves results according to standard procedures
- Establish state-of-the-art and actionable variant and clinical result interpretation and to interact with medical geneticists
- Review and return results to Health Nucleus clients
- Partner with our team of nurses, technologists, and clinicians in a client-centered model, help clients set genomic-driven goals, and support daily clinical work
- Effectively communicate the Health Nucleus model and products to prospective clients and employees

I really appreciate you taking the time to review my application for the position of clinical geneticist.

Sincerely,

Onyx Oberbrunner
