

Clinical Geneticist Cover Letter

14930 Murray Corner South William, SD 93183

Dear Armani Kiehn,

In response to your job posting for clinical geneticist, I am including this letter and my resume for your review.

In the previous role, I was responsible for scientific leadership in the innovative design, execution, and interpretation of clinical trials in one or more development programs.

My experience is an excellent fit for the list of requirements in this job:

- Experience in CLIA lab test development
- Familiarity with software development lifecycle processes and quality systems for development of regulated products
- Experience with pharmacogenetics and genomic variant interpretation
- Assist in somatic and germline variant interpretation and reporting
- Assist with research, development, and validation of new assays
- Work in interdisciplinary groups of scientists, engineers, and product developers to translate genetic sequencing results into clinically actionable insights for our clients
- Produce high quality and detailed documentation for all projects

Thank you for your time and consideration.

Sincerely,

Sam Stark
