

# Clinical Research Associate Cover Letter

3398 Danial FreewayLake Deidremouth, MT 04573

**Dear Marion Russel,**

I would like to submit my application for the clinical research associate opening. Please accept this letter and the attached resume.

Previously, I was responsible for guidance to the Clinical Research Billing team regarding review of contracts, budgets, study calendars, and expenses posted to clinical trials.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Has a full understanding of the Serious Adverse Event (SAE) reporting, process production of reports, narratives and follow up of SAEs
- Thorough knowledge of and experience with monitoring procedures, mainly in oncology
- Hold an advanced qualification, including RN or MS or MA
- Support Informatics Quality, and PEH R&D by supervising the activities involved in implementation and maintaining validation/qualification and calibration programs throughout the PEH R&D organization
- Have a good understanding of current regulatory regulations and requirements
- Experience and interest in working with companion animals and livestock
- Proficiency with making media, coating cell culture plates, cell dissociation, counting, feeding, cryopreservation and thawing, morphology and confluency evaluation using standard microscopy and digital imaging
- Work well within a team and individually

**Thank you for taking your time to review my application.**

Sincerely,
