

Clinical Research Associate Cover Letter

655 Francisco Lodge Lake Bobbie, LA 44433

Dear Drew Mohr,

I am excited to be applying for the position of clinical research associate. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for expertise in the clinical research being conducted, assist with the design, planning and implementation of clinical trials and project activities associated with the monitoring of multi-center clinical studies.

My experience is an excellent fit for the list of requirements in this job:

- In Vitro Diagnostics (IVD) experience or medical device experience
- Experience with IBM Clinical Development a place
- Work with a dedicated multi-disciplinary research team to coordinate several human genetics and personalized medicine research studies
- Obtain and maintain IRB approval
- Recruit participants, obtain informed consent, and participate in data collection, data analysis, manuscript preparation, and grant preparation
- Provide assistance in ongoing and new genomics initiatives including management of human genetic disease registries, return of participant research results, and assessments of genetic testing implementation
- Have an opportunity to be involved in abstracts, publications, patient education, and other projects
- Working knowledge of database software and basic statistical analysis

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Landry Corkery
