

Clinical Research Coordinator Cover Letter

766 Deangelo ViewsGeorgannburgh, IN 36481-6521

Dear River Legros,

In response to your job posting for clinical research coordinator, I am including this letter and my resume for your review.

In my previous role, I was responsible for assistance to physicians analyzing images in the clinical trials (imaging data transfer and upload, preparation of image reading sessions, collection of data forms, transfer of data into electronic database).

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience in clinical pulmonology and clinical/epidemiology/pulmonary research
- Proficiency in the usage of Committee of Human Research (CHR) online iMEDris system for submission, renewal, and modification of protocols through this system
- Demonstrated familiarity with maternal and child medical records and medical record abstractions
- Demonstrated experience with large data collection activities including comprehensive participant interviews
- Knowledge and demonstrated past research experience of child developmental disabilities including autism spectrum disorder
- Knowledge and demonstrated past research experience of maternal health in pregnancy, pregnancy exposures, and perinatal and neonatal health outcomes
- Sensitivity in communicating with vulnerable populations
- Experience with web-based computer applications and Microsoft Access databases

Thank you for taking your time to review my application.
