

Clinical Research Scientist Cover Letter

64153 Harris SummitLake Orval, SD 28666

Dear Tyler Lemke,

I submit this application to express my sincere interest in the clinical research scientist position.

In my previous role, I was responsible for oversight of data management activities (monitoring, analysis, review and reporting of data) in compliance with GCP, SOPs and standards for clinical studies to ensure data integrity.

My experience is an excellent fit for the list of requirements in this job:

- Demonstrated proficiency in CRD work
- Proficiency in managing direct or indirect employees or leading teams
- Advanced knowledge of GCP/ICH, overall drug development process from discovery to registration, study design, statistics, clinical operations
- Experience in driving, managing and collaborating in a team/matrix work environment
- Advanced knowledge of indication, therapeutic area, competitive landscape and health authority requirements
- Advanced medical writing and presentation skills
- Recognized internally and externally as a TA and Functional expert
- Effective planning and time management

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Charlie Dietrich
