

# Clinical Research Scientist Cover Letter

96243 Molly Station Miquelland, ND 80941

**Dear Sutton Gibson,**

I would like to submit my application for the clinical research scientist opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for clinical input to protocol/study team for monitoring guidelines, statistics analysis plans, ICDs, clinical review forms, data edit checks, data quality planning, as needed (ultimately oversees work of protocol/study team).

Please consider my experience and qualifications for this position:

- Knowledge of human clinical research, including Good Clinical Practice (GCP)
- Good communication and presentation skills to Senior Management and Project Boards
- Effective team working and communication skills
- Demonstration of independent execution from scientific hypothesis to validation is essential
- Proven experience in algorithm development, signal processing, time series analysis
- Research experience in neurological disease areas, especially Movement Disorders
- Develop data sets and an online survey system for the collection of research data, methods modification, metrics and techniques, develop a web site user's guide to include a summary of recommendations
- Possession of a M.A., M.D., or Ph.D

**Thank you in advance for reviewing my candidacy for this position.**

Sincerely,

Shae Kirlin
