

Clinical Reviewer Cover Letter

1024 Bernier Expressway Gerholdhaven, MO 28941

Dear Cameron Schoen,

I submit this application to express my sincere interest in the clinical reviewer position.

In my previous role, I was responsible for close oversight of Humana's delegated partners compliance to federal, state and other regulatory body requirements for the delegated functions of Utilization Management, Disease Management, Complex Case Management and Special Needs Programs.

Please consider my experience and qualifications for this position:

- Demonstrable experience or course work in managed care/referral process, medical terminology/spelling, medical documentation and coding (CPT/ICD-9)
- Experience with advanced computer applications
- Clinical Data Reviewer should be capable of understanding study protocol, study CRF, Database structures and Data handling plans
- Needs to ensure the overall integrity and consistency of study data using automated and manual methods to perform Data Review
- Registered Nurse graduated from an accredited program preferred
- Registered Nurse (RN) graduated from an accredited program
- Current unrestricted IA Registered Nurse license
- Excellent time management skills, prioritizing work and meeting timelines

I really appreciate you taking the time to review my application for the position of clinical reviewer.

Sincerely,

Dylan Zboncak
