

Clinical Supplies Cover Letter

597 Tremblay Underpass South Liana, CA 59482

Dear Cameron Botsford,

In response to your job posting for clinical supplies, I am including this letter and my resume for your review.

Previously, I was responsible for input and coordinate the delivery of clinical trial supplies in collaboration with clinical supply team.

Please consider my qualifications and experience:

- Understanding of the development process and clinical supplies
- Demonstrates fundamental knowledge of supply chain computer systems
- Works with Clinical Research & Operations Project Management to forecast drug product requirements, study specific clinical supply costs, and timelines
- Works with Pharmaceutical Development to deliver drug products for packaging, assessing product dating, storage conditions, primary components, analytical testing needs, and retain quantities
- Works in collaboration with the Clinical team to develop the clinical supplies section for protocols, develop the clinical supplies plan and create labels
- Creates packaging designs and generates label copies in accordance with study design requirements and obtains internal approvals
- Manages the vendor selection process
- Requests quotes and reviews/approves proposals

Thank you for taking your time to review my application.

Sincerely,

Quinn Fisher
