

Cloud Administrator Cover Letter

224 Funk LightNew Kenneth, IL 33830

Dear Spencer Kuhlman,

I submit this application to express my sincere interest in the cloud administrator position.

Previously, I was responsible for system Administration (SA) and assist client troubleshooting application running on the Linux systems.

My experience is an excellent fit for the list of requirements in this job:

- Experience implementing a business continuation and disaster recovery plan
- Experience with cloud platforms, virtualization platforms and containers (AWS, Azure, Docker, VMWare/VSphere)
- Experience with web application environments, such as TCP/IP, SSL/TLS, HTTP, DNS, routing, load balancing, CDNs
- Attitude to thrive in a high-production, customer-oriented environment
- Experience with Windows, Unix/Linux, and SQL
- Proficient in Windows Active Directory Administration
- Proficient with IT Project Manager Microsoft office tools (Excel, Word, MS Project)
- Experience with implementing and controlling the flow of data to and from AWS

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Ari Weimann
