

Cloud Security Cover Letter

6258 Lizzette FieldLake Jack, OR 66679-4398

Dear Dakota Torphy,

I submit this application to express my sincere interest in the cloud security position.

In the previous role, I was responsible for technical guidance and leadership for security standards relating to cloud environments and cloud-native services.

Please consider my qualifications and experience:

- Expertise - Collaborate with Product Managers, Platform Leads, and Information Security teams, to architect and design cloud security solutions
- Experience with related technologies (open source cloud management/open stack, software networking, key management systems, encryption)
- Participate in requirements reviews, cloud architecture, environments compliance support to ensure security best practices are included
- Analyze findings and provide recommendations and assist with implementation of changes
- Provide guidance on and oversee cloud security practices conducted by other technical teams
- Awareness or experience of various industry standard methodology, IT security controls, Data Privacy work, ISO27001, SOX, CSA, Frameworks and regulations, IT Risk and audit experience
- Preferred CISSP/CISA/CISM/CCSP/PCI SQA Certified
- Perform security reviews, identify gaps in cloud security architecture and develop security risk management plans and roadmaps with focus on cloud security

I really appreciate you taking the time to review my application for the position of cloud security.

Sincerely,
