

# Cloud Security Cover Letter

8477 Charley Mission Kennethhaven, PA 24584-5725

**Dear River Larkin,**

I am excited to be applying for the position of cloud security. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for assistance and guidance in securing the cloud resources (virtual machines, containers, security groups, firewalls etc.).

Please consider my experience and qualifications for this position:

- Strong knowledge of and background in cloud security policy and information technology-related (IT) issues such cloud first policies, national and regional cloud strategies, directives, legislation and policies
- Experience with national, international, and/or sectoral cloud security assurance/compliance regimes and frameworks such as Federal Risk and Authorization Management Program (FedRAMP), Federal Information Security Management Act (FISMA), SOC, ISO 27001/27018
- Rs of experience or equivalent representing companies before national and international policymakers, with demonstrated achievements
- Experience working successfully in industry associations, public private partnerships, or other cross-company/sector fora to advance shared goals
- Minimum of 5 yea
- Experience with assessing, advising, and shaping government policy including strategy development and execution (i.e., identify major shifts, trends, and drivers
- Knowledge of global first movers and early adopters in cloud security policy and compliance
- Successfully navigate and manage cross-team initiatives and relationships with a track record of appropriately balancing stakeholder equities

**Thank you for considering me to become a member of your team.**

Sincerely,
