Cloud Software Developer Cover Letter

5240 Stehr JunctionNew Latashatown, CA 62211-3117

Dear Jordan Heller,

Please consider me for the cloud software developer opportunity. I am including my resume that lists my qualifications and experience.

Previously, I was responsible for software expertise in one or more of these areas: .Net application integration, .Net enterprise services, service oriented architectures (SOA), security, business process management/business rules processing, user experience (UX) and accessibility (Section 508/WCAG/USDS Web Standards).

Please consider my experience and qualifications for this position:

- Experience with Python, MySQL, or Openstack
- Experience with messaging protocols based on AMQP standard
- Cloud performance engineering experience
- At least 6 months exposure/experience with Open Source CI/CD tools such as GitHub and Jenkins
- Familiarity with GO programming would be an asset
- Strong technical skills in Object Oriented program such as java/C++
- Strong technical skills in database design and performance
- Experience in web tier technologies (Javascript, AJAX, HTML, DHTML, CSS)

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Blake Reynolds
