Cloud Software Developer Cover Letter

422 Ebonie BranchEast Chassidyhaven, VT 53523

Dear Frankie Herzog,

I am excited to be applying for the position of cloud software developer. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for rEST support for leveraging SFMC web service to: trigger communications, journeys, and automations, transfer data into journeys and data extensions, retrieve data from extract tables, expand Travelers utilization of SFMC REST web service.

Please consider my experience and qualifications for this position:

- Experience in working with a large, complicated system, preferably cloud based
- Experience in full stack (web, middle, backend database) development
- Experience in using or building BI, database, or analytics products preferred
- Server side enterprise frameworks (including, but not limited to Spring, Java, Java EE, Hibernate or similar/equivalent)
- Experienced in software design and system architecture
- Graduate of a major university or technological unit in the IDF
- Knowledge in developing, implementing, and optimizing software algorithms
- Experience with AWS and/or Azure cloud technologies, big data, map-reduce

Thank you for considering me to become a member of your team.

Sincerely,

Landry Harris
