Dear Sutton Schimmel,

I submit this application to express my sincere interest in the cognos administrator position.

In my previous role, I was responsible for subject matter expertise on the capabilities and use of the Cognos environment.

My experience is an excellent fit for the list of requirements in this job:

- Experience in security framework, managing cube, element, cell level user requirements
- Experience with OS Monitoring Tools
- Understanding of LDAP and Active Directory
- Experience in building interactive dashboard in Cognos analytics
- Experience with Cognos data modules and datasets
- Good understanding and hands on experience of Crystal reports
- Good experience in administering Cognos system
- Experience in configuring, tuning, and maintaining Cognos in non-prod and Production environments

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Charlie Stokes
