

Communications Engineer Cover Letter

33986 Louie Point East Joey, OR 97085-1841

Dear Shae Considine,

Please consider me for the communications engineer opportunity. I am including my resume that lists my qualifications and experience.

In the previous role, I was responsible for on-call support as required to ensure availability of mission critical services such as authentication, DNS, DHCP and access to network resources.

Please consider my qualifications and experience:

- Maintains organized ordering process
- Extensive knowledge working with voice communications systems, dial plans, switching architecture, telecom network infrastructure, associated structured cabling, modulation types, and troubleshooting techniques
- Design, test and commissioning of Telecommunications systems such as PA/PIS, Backbone Systems, CCTV, with involvement in the complete design lifecycle
- Experience with C, C++, Java etc programming languages
- Knowledge of TCP/IP and serial programming
- Knowledge any communication protocols
- Basic understanding of multiple communication technologies (cyber, satellite, RF, cellular)
- Understanding of Windows client operating systems such as XP and Vista - Basic knowledge of TCP/IP

Thank you for your time and consideration.

Sincerely,

Cameron Walker
