

Communications Engineer Cover Letter

11184 Tameika Street North Ismaelside, ND 24517

Dear Gray Corwin,

I would like to submit my application for the communications engineer opening. Please accept this letter and the attached resume.

Previously, I was responsible for engineering, configurations, and support for DHCP and DNS.

My experience is an excellent fit for the list of requirements in this job:

- Strong written and verbal skills - Broad general knowledge of desktop PC hardware, applications and peripherals
- Understanding of personal computer software set up and installation, PC connectivity products and network connectivity
- Familiarity with modems, circuit board, design verification test planning and execution
- Solid understanding of Communications theory and techniques
- Experience understanding and implementing Verilog HDL
- Communication system architecture and design experience
- Provide innovation in the development for new communications analysis capabilities
- Solid knowledge in payload design with experience of key communications payload technologies including TWTA's, SSPA's, OMUX, matrix amplifier

Thank you for your time and consideration.

Sincerely,

Baylor Quigley
