Dear Riley Metz,

Please consider me for the compliance audit opportunity. I am including my resume that lists my qualifications and experience.

Previously, I was responsible for a thoughtful risk-based perspective and help oversee all parts of the internal audit program including risk assessment, audit plan development, audit plan execution, monitoring, and project reviews.

My experience is an excellent fit for the list of requirements in this job:

- Public accounting or consulting background (preferably with the Big Four)
- Experience with entertainment industry participations and residuals processes preferred
- CPA, or other qualification and/or MBA preferred
- Experience managing the audit process domestically and/or internationally
- Recommended to have experience with international statutory accounting and governance
- Managerial experience with problem-solving and analysis
- Develop staff through coaching and mentoring
- Certified Public Accountant (CPA) designation strongly preferred

I really appreciate you taking the time to review my application for the position of compliance audit.

Sincerely,

Parker Erdman
