

Computer Security Specialist Cover Letter

14346 Collins UnionsMikelmouth, OK 76564

Dear Gray Mante,

In response to your job posting for computer security specialist, I am including this letter and my resume for your review.

In the previous role, I was responsible for information Security and Information Assurance solutions centered around hybrid cloud and other services such as ServiceNow.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience with configuring and maintaining DoD security tools (ACAS Security Center, HBSS ePO server)
- Knowledge of DoD space/architecture
- IAT Level II and at least one computing environment certification
- Mid-level knowledge of DoD and Army standards, Assessment and Authorization (A&A) techniques, actions and best practices related to A&A
- Experience with various commercial security tools (BURP, Fortify, WebInspect, AppDetective)
- Experience with supporting security control selection and other activity to support RMF specific steps
- Analyze and recommend resolution of security/IA problems on the basis of knowledge of the major IA products and services, an understanding of their limitations, and knowledge of the IA disciplines
- Provide daily supervision and direction to staff

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Dylan McKenzie
