

# Computer Security Specialist Cover Letter

60690 Nikolaus BranchPort Marnie, AZ 24346

**Dear Casey Purdy,**

In response to your job posting for computer security specialist, I am including this letter and my resume for your review.

In my previous role, I was responsible for guidance and subject matter expertise on DoD and AF policies, instructions related to the C&A processes, AF Security, Interoperability, Supportability, Sustainability and Interoperability (SISSU) activities, DoD Enterprise Mission Assurance Support Service (eMASS) web based tool used to implement the DoD Information Assurance C&A Process, the AF Certification and Accreditation Process (AFCAP), and DoD's Risk Management Framework (RMF).

Please consider my qualifications and experience:

- Experience with Storage Platforms and Operating Systems including NetApp, HP, Sun, EMC, and any other platforms
- Experience with various software components such as Adobe, Java, and any other various software components
- Able to provide network management support that includes administering, operating, and maintaining computer network systems
- Experience developing and implementing Access Control Lists with the appropriate documentation to support a least privileged approach to access security
- Assisting Information Assurance Team in the implementation of effective, streamlined, and all-inclusive "perimeter" defense including but not limited to Intrusion Detection System/ Intrusion Prevention System (IDS/IPS), Anti Malware, URL and Content Filtering, firewall security, and VPN Access, any other requirements identified by the Information Assurance Team, OMB, or DHS
- Security+ and/or CISSP preferred
- Experience with security controls for an Infrastructure as a Service (IaaS),

**Thank you for considering me to become a member of your team.**

Sincerely,

Ryan Donnelly
