

Computer Security Specialist Cover Letter

32746 Zulauf Course North Greentown, CO 77281

Dear Hayden Lubowitz,

In response to your job posting for computer security specialist, I am including this letter and my resume for your review.

In my previous role, I was responsible for security expertise in building solutions related to cloud architecture design, implementation, maintenance, governance, and risk management.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience with Trusted Agent
- Experience with Word, Excel, Visio, and SharePoint
- Experience with reviewing and testing Controls
- Experience complying with IT security requirements including FISMA, NIST and other security protocols
- Experience with Operating Systems and Infrastructure Components including being up-to-date with the latest versions, security patches, software updates, enhancements, and bug fixes
- Knowledgeable of NIST, DHS, manufacturer recommendations, and other industry and market standards for system administration and maintenance
- Experience including but not limited to Network components and their Operating Systems including Cisco, F5, Citrix, Juniper, and any other network components
- Experience with database services including Oracle, DB2, Informix, MS SQL, and any other network components used in an enterprise environment

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,
