

# Construction Engineering Cover Letter

5025 Waldo LocksBartellberg, ND 69370

**Dear Skyler O'Conner,**

I submit this application to express my sincere interest in the construction engineering position.

In the previous role, I was responsible for construction inspection of water supply, wastewater collection and treatment facilities including municipal water and wastewater treatment plants, pipelines, storage facilities, and pump stations for municipal and federal clients in the El Paso area and throughout the State of Texas.

My experience is an excellent fit for the list of requirements in this job:

- OSHA 30 Hour Construction course completed
- Can understand and interpret insurance, permitting and contracting standards appropriately
- Stays current with advancements in the subcontract administration fields
- Fluency in German, English and French language is essential
- Good understanding of client construction/engineering programs and performance in relevant markets (Continental Europe & MENA)
- Extensive knowledge with AutoCAD, MathCAD, and Microsoft Excel
- Familiarity with codes and standards for construction
- An earned doctorate in Construction Engineering Management from an accredited institution of higher education

**Thank you for considering me to become a member of your team.**

Sincerely,

Riley Cormier
