

Control Room Operator Cover Letter

4530 Evelyn Wall North Wyatt, VA 37264

Dear Armani Bechtelar,

I submit this application to express my sincere interest in the control room operator position.

Previously, I was responsible for motorist Assistance, Traffic Incident Management Services, and Implements Incident Command System protocols when appropriate.

My experience is an excellent fit for the list of requirements in this job:

- An intimate knowledge of St
- Experience in power generation, distribution or transmission will be highly regarded
- Rigorous and structured in the execution of work
- Analytical abilities to collect, evaluate numerical data and complete both internal and external reporting
- Open to change management
- Work based on 8 or 12 hour rotating shifts
- Production and Injection (well fluid flow and pressures)
- Subsea Infrastructors (flowlines, umbilicals, manifolds and SCM's)

Thank you for your time and consideration.

Sincerely,

Skyler Labadie
