

Control Room Operator Cover Letter

876 Bayer RadialWest Chadwick, FL 91149

Dear Onyx Hickle,

In response to your job posting for control room operator, I am including this letter and my resume for your review.

In my previous role, I was responsible for full and accurate details of incident progression, resolution and escalation to customers, vendors and management through effective use of the dedicated recording / reporting systems;.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Separation Processes (separators, degasser, oil treater)
- Produced Water Systems
- Crude Oil-to-Export (LACT, buy back, dry oil)
- Gas Compression (booster gas, flash gas, dehydration, vapor recovery, gas lift, buy-back)
- Process Support Systems (instrument air, chemicals, heating/cooling, seawater, power generation, flares)
- Safety Systems (ICSS, PCS, ESS, PSS, fire/gas detection, lifesaving)
- Maintain knowledge of topsides equipment and share best practices with other disciplines as needed
- Work with PSV to achieve access to next role competencies in order to continuously improve skills and promote within the organization as openings become available

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Max Monahan
