

# Creative Services Manager Cover Letter

791 Donnie TunnelPort Sherman, WV 69112

**Dear Lennox Hauck,**

In response to your job posting for creative services manager, I am including this letter and my resume for your review.

In my previous role, I was responsible for strategic design direction and helps teams resolve the creative tensions between brand consistency and platform-specific design constraints and needs.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Understanding of television, print and digital production preferred
- Consensus builder and proactive problem-solver
- Strong team player, who can also take the initiative and work independently with little or no supervision
- Experience with and thorough knowledge of Agile software development methodologies, and how it applies to design process
- Understanding of user-experience design and process
- Understanding of software or digital development and processes
- Daily interaction with team leads to update report on and discuss projects
- Collaborate with Design team and Project Manager

**Thank you for considering me to become a member of your team.**

Sincerely,

Indigo Wisoky
