

Customer Engineer Cover Letter

93615 Green StravenueLinaton, PA 87825

Dear Peyton Spinka,

I would like to submit my application for the customer engineer opening. Please accept this letter and the attached resume.

Previously, I was responsible for technical leadership in investigations of single use issues with single-use systems across the global manufacturing network.

Please consider my qualifications and experience:

- Prior experience as an electronics and electrical specialist preferred
- Able to troubleshoot electronics, electrical and electro-mechanical equipment using schematic or block diagrams
- Able to define problem, collect data, establish facts and draw valid conclusions in both power electronics, electrical, mechanical and assess customer issues
- Can participate well in proactive team efforts to achieve departmental and company goals
- Highly talented, eager to learn university/army graduate and/or industry beginner with the below background
- Willing to invest intensive efforts to become a Nuage specialist in a relatively short period of time
- Expertise in touchscreen and capacitive sensing technology
- Excellent communication skills, verbal and written in both English and Korean

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Spencer Schneider
