

Customer Engineer Cover Letter

4980 Skye Rapids New Cletusview, ME 86011-7627

Dear Avery Shanahan,

I would like to submit my application for the customer engineer opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for technical leadership to the project team, including understanding the future direction of systems and databases, how the direction will impact the enterprise, and how future and current systems and databases can be exploited for the benefit of the enterprise.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Adheres to proper escalation procedures
- Willing and able to take challenges
- Open minded to other cultures and ways of working
- Understanding of statistical concepts, AIAG procedures and knowledge of current quality specifications
- Fresh graduates need only apply
- Basic FA knowledge on procedure and test instrument
- Track & report key customer quality metrics
- Knowledge of power distribution and control systems (LV and MV Switchgear, Panel boards and Switchboards, Motor Control Centers,))

Thank you for considering me to become a member of your team.

Sincerely,

Emery Shanahan
