

Customer Engineer Cover Letter

2678 Towne PortHarberville, SD 76372

Dear Peyton Johnston,

I would like to submit my application for the customer engineer opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for leadership to a team of IT professionals including Network Engineers, Database Administrators, Systems Administrators, PeopleSoft Administrators, Windows administrators and General IT systems administration.

My experience is an excellent fit for the list of requirements in this job:

- Knowledge power distribution products (LV and MV Switchgear, Panelboards and Switchboards, Motor Control Centers)
- Quickly learn and understand rotating and process equipment related to power generation, oil and gas, aviation, and mining industries
- Comfort with fast-paced work environment
- Demonstrated willingness to do-what-it-takes to complete a job successfully
- Able to both operate independently, and be part of a team
- Track record in technical competence in the power industry
- Fluent in Chinese & English language
- Practical knowledge of Ethernet, IP, DWDM, OTN and SONET/SDH

Thank you for your time and consideration.

Sincerely,

Ryan Stark
