Cyber Security Engineer Cover Letter

485 Stefan NeckLebsackmouth, WA 35752

Dear Blake White,

I submit this application to express my sincere interest in the cyber security engineer position.

In the previous role, I was responsible for guidance and assistance for IT security to include implementation of software patches, IAVAs, STIGs for both operating systems and applications.

My experience is an excellent fit for the list of requirements in this job:

- Process controls, hazard mitigations, and risk assessment experience
- Familiarity with NIST and DOE cyber security policies
- Engineering and design experience (PLC programming, HMI configuration, electrical, instruments, junction boxes)
- Familiarity with computer aided design programs
- Instructor/training experience
- Experience with leveraging industry-standard tools
- Experienced with tools such as Burp/Paros/Proxy tools, nmap, Nessus, Metasploit, Kali, SQL Ninja/SQLMAP and various hacking tools
- Adhere and ensure methodologies follow technical standards

Thank you for your time and consideration.

Sincerely,

Phoenix Runolfsson
