Dear Reese Vandervort,

I would like to submit my application for the cyber security engineer opening. Please accept this letter and the attached resume.

Previously, I was responsible for subject matter expertise in the design of security processes and mechanisms for applications and operating systems.

Please consider my experience and qualifications for this position:

- Working knowledge of cyber assurance/information assurance methodology
- Technical experience in Public Key Enablement, Attribute Based Access Control and IT Audit
- Knowledge of Intelligence Community Standard 500-27, Collection and Sharing of Audit Data for Intelligence Community
- Knowledge of Intelligence Community Policy Guidance - Attribute-Based Authorization and Access Management
- Knowledge of Intelligence Community Directive - IC Information Technology Systems Security Risk Management
- Develop ID Proofing infrastructure
- Integrate of solutions with other platform applications
- Develop analytics and reporting capabilities for solutions

I really appreciate you taking the time to review my application for the position of cyber security engineer.

Sincerely,

Dylan Breitenberg
