Dear Justice Fay,

Please consider me for the data science opportunity. I am including my resume that lists my qualifications and experience.

In the previous role, I was responsible for expert level support to data scientists and data engineers to deliver high quality machine learning data pipelines, APIs and end to end solutions.

My experience is an excellent fit for the list of requirements in this job:

- Create the necessary routines for extraction of modeling and analysis datasets
- Development of prototype models
- Proven track record leading large-scale/ complex analytics projects with demonstrated financial benefits
- Maintains positive, collaborative partnerships with internal stakeholders, skillfully juggling conflicting priorities and maintaining order through effective project management
- Significant training in advanced statistics
- Expert knowledge of R and/or Python (ideally both)
- Strong data munging and software engineering skills (Spark, SQL/NoSQL)
- Innate curiosity to always ask why and the creativity to find the answer

Thank you for considering me to become a member of your team.

Sincerely,

Haven Bins
